PHYSICAL THERAPIST IS ONLY A PHYSICAL THERAPIST (2)

- With his degree, he's only allowed to practice physical therapy no matter how good is his knowledge about other specialization

In worse cases, some P.T are excessively concerned in taking over their colleagues patients by displaying academic learning, and not relying on their professional practice

Advanced Physical Therapy Techniques

Upper Cervical Correction (Hunt et al., 2000)

Posterior-anterior compression of the upper cervical region

- Leads to relief of neural muscle guard
- The body begins to move in a more efficient manner
- Leads to a reduction in the mechanical stresses on the spine, which in turn leads to a more relaxed posture

Robert Taylor, DPT et al., 2008

Technique

- Patient prone in table for traction and
- Manipulation is done by tractioning with
- Manipulation is done by tractioning with

Posterior-anterior Traction Therapy (Patt et al., 2005)

Manual or motorized traction

- Unilateral or bilateral
- Improves muscle activity
- Leads to a more relaxed posture

Discussion

Understanding Scoliosis

Scoliosis: A three-dimensional spinal deformity.
Lateral curvature, vertebral rotation, sagittal plane abnormalities.
Other idiopathic (Adolescent Idiopathic Scoliosis - AIS) in 80-90% of cases.
Effective management strategies remain controversial.

Figure 1, et al (2018)

PHYSICAL THERAPY CONFERENCE 2025 “UNITING MINDS, MOVING LIVES”

Title	Speaker	Moderator	Time
Registration			8:30 – 9:30
Opening Ceremony			9:30 – 10:00
Rehabilitation Strategy In Spinal Cord Injury	DR. AHMAD RIFAI	DR. HIBA SHARAFELDINE DR. MOHAMMAD AHMAD	10:10 – 10: 35
Advances in Facial Palsy Rehabilitation: An Evidence-Based PT Perspective	DR. AMIR MADI		10:35 - 10:55
Coffee Break			11:05 – 11:30
Manage, Monitor And Manage Physical Performance “VALD Technology”	MR. KINAN AL KHATIB	DR. BASSAM BEAYNI DR. MOHAMMAD AHMAD	11:30– 11: 55
The Role of Clinical Assessment in Detecting Undiagnosed Scoliosis in Patients with cervical or low back pain	MS. MARWA KHADDAJ		11:55 – 12:20
New Interventions For Cerebral Palsy, Developmental Delay, And Sensory Integration	DR. FATEN JAFFAL	DR. FIRAS AL MASRY DR. MARGO ABOU ALI	12:30 – 12:55
Physiotherapeutic Scoliosis- Specific Exercises (PSSE): What Does the evidence Say?	DR. HIBA HASSOUNA		12:55 – 1:10
Lunch			1:20 – 2:00
Advanced Airway Clearance Strategies in Pediatric B	DR. JOSEPH EL MIR	DR. MOHANAD ZARZOOR DR. AYMAN MOKDAD	2:00 – 2:25
Evidence- Based Cardiac rehabilitation: Tools for better Outcomes in Heart Failure Patients	DR. ZAHRA SADEK		2:25 – 2:50
The silent Struggle: Lymphedema and the Quest for Balance and intervention	MR. WAEL ABOU ZOR	DR. DIAA ABOU CHAKRA DR. RAMI SAEDI	3:00 - 3:25
Vestibular dysfunction in benign paroxysmal positional vertigo	DR. SHAHEEN AL SAYEGH		3:25 – 3:35
Dealing With Difficult Ethical Dilemmas: 35 years’ experience in physical therapy	DR. NEHME NEHME		3:35 – 3:50
Closing			3:55 – 4:00
