CAREMED Relevance

Enhance health system resilience by fostering patient empowerment and community engagement

Reduce NCD-related comorbidities and hospital admission, contributing to lowering overall health cost

Transition from hospital-centered to community-based care for NCDs by adopting innovative community-based care models

CAREMED

LTCs - Local Thematic Committes

1. Establishment of **six LTCs** per country under the same thematic areas in order to simulate the functioning of TTCs at national level.
2. **Local stakeholders**, relevant to the different thematic areas, participate in the LTCs.

LTCs provide guidance for the implementation, monitoring, and evaluation of project activities, review collected data during regular LTC meetings, and provide recommendations to TTCs.
