WP4 – Active Patient Care Model (APCM)

Adaptation and implementation in Lebanon of the Active Patient Care Model (APCM) developed by the Primary Care Management of Mallorca (GAPM), Spain.

Important Note : APCM Country specific (MoPH, and national stakeholders)

WP4 Main activities (implemented in the 2 PHCCs):

- Capacity-building of healthcare professionals (target PHCs) on the APCM methodology and its operational tools;

- Identification and training of Active Patient Trainers (APTs) affected by the three selected NCDs, conducted by the trained healthcare professionals under the supervision and technical guidance of GAPM;

- Adaptation of disease-specific educational and self-management materials to the Lebanese context for the three selected NCDs;

- Provision of medical equipment to support the implementation of the pilot activities;
